High Cost of Living Commission
er Says Louisville Millers
Are Discriminating

Louisville, Ky., Sept. 18—A fair price list for foodstuffs may never be agreed on or published by the Kentucky High Cost of Living Commission, according to M. B. Kendrick, a member of its Investigation Committee, who made the following statement, in the nature of a disclosure, regarding work of the commission:

"Under the acts made during the war, fair price committees should be composed of a wholesaler, a retailer, a butcher and a producer. For two weeks members of the committee have been fighting to publish a fair price list.

"I believe it is impossible to find a committee composed of dealers who voluntarily would reduce profits in order to make a fair price list for the benefit of the common people. Nor do I believe that the present committee ever will be able to agree on a fair price list.

"I am sure that a reduction in prices will mean a loss of profits to both wholesaler and retailer, but will leave them a reasonable margin of profit.

Speaking of the flour investigation which has been under way by the commission, Mr. Kendrick said:

"In the flour investigation it was found by the commission that Ballard & Ballard Company sold flour as far South as New Orleans at from \$1 to \$1.10 a barrel less than they would sell it to the Louisville trade.

"When Mr. Ballard was called before the commission he admitted that his company sold flour cheaper outside, but contended that it was sold in carload lots and for cash and therefore it could be sold for less money. Mr. Ballard was not willing, however, to agree to sell at the same price in the Louisville market, even for cash. He did offer to make a reduction of 40 cents on barrel, provided Louisville retail grocers would make a like reduction of 40 cents, which would mean that a reduction of 80 cents would be given to the consumers of Louisville.

"I do not consider Mr. Ballard's proposition fair. I believe in Louisville and the people of Louisville and Kentucky, and I am of the opinion that Mr. Ballard should show people of Louisville and Kentucky the same consideration he is showing people of adjoining States."

LOT AND BABY FARM SALE GREAT SUCCESS

Reports from the Baughman Heights sale at Danville Wednesday are that it was the most successful lot and baby farm sale ever held in that section of the state. The sale was conducted by Col. G. B. Swinebroad of Lancaster, and no one expected to be otherwise than a complete success. The lots are said to have sold as high as \$900 an acre, and the bunch of baby farms, which had been cut off the big tract, sold at \$500 an acre for them all. The baby farms were made up of five and ten-acre tracts. J. H. Baughman, of Danville, well known here, owned the property thus disposed of.

Real estate agent L. P. Evans made another nice farm sale this week when he sold the farm of Thomas Cotton on the Moran's Mill pike to Elbert Wagers. Mrs. S. Q. Royce's farm was not sold at auction Thursday morning. Mrs. Royce withdrew the farm at the top bid of \$145.50 an acre. It is understood that she was desirous of obtaining at least \$175 an acre for the place. Real estate men remarked after the sale that other buyers might have been present to carry the farm higher except that bids were "subject to confirmation." There are 250 acres in the farm, which lies nine miles from Richmond on the Boonesboro pike.

MRS. JETT BUYS BACK HER HUSBAND'S HOME

The home place of the late Shelby Jett, near Kirksville, which was sold Tuesday to settle his estate, did not remain out of the family long. Mr. Ed Turner who bought it at \$311 an acre, soon after sold it to Mr. Smith Hagan at an advance of \$1,600 on the purchase price. Then Mrs. Jett, who could not be reconciled to seeing her life-long home out of the family, and did not desire to move to town to live, together with one of her sons, Mr. Covington Jett, bought the home from Mr. Hagan at \$3,500 profit over what he had paid. There are acres in the tract, and it is understood that Mrs. Jett plans to continue to live on the home place as long as she lives, while Mr. Covington Jett will farm it.

The sale of land of the late Shelby Jett, was published in Tuesday's Register, but live stock was being sold as it went to press. Col. Jesse Cobb brought top prices for mules, 1 pair selling for \$400 and another at \$550 a pair; cows brought from \$90 to \$120; corn in the field sold at 15 cents a pound; hay \$22 a ton; straw \$9; farming implements sold high. The household and kitchen furniture will be sold later.

TUG OF WAR

Friday Between Freshmen and Juniors of M. H. S.

On Friday afternoon at 3 o'clock there will be a tug of war between the Freshman and Juniors of the Madison High School on one side and the Sophomores and Seniors on the other. The tug of war will be at what is known as the Kruse pond on the Four Mile pike, just across the road from the grandstand of the old fair grounds. The tug of war will consist in the classes arranging themselves against each other as mentioned above, two classes on one side of the pond and two on the other. A cable will be stretched across the pond and each side will attempt to pull the other through. The contest will begin at 3 o'clock and if neither side has pulled the other through the pond by six o'clock the contest will be a draw. The tug of war will decide the class supremacy for the year, the two classes that win having particular privileges that the other classes will not enjoy.

Much interest is being manifested in the contest at the high school. Both groups went to the country last night and held council of war around their camp fires. Much rivalry in the way of songs and yells was shown. The classes have organized and have elected their officers and have adopted their colors and mottoes. The public is cordially invited.

Proposed White Way Posts

WHITE WAY PLANS DRAWN IN DETAIL

Handsome Standards Suggested Supporting 400-Candle Power Incandescent Lights

Plans are moving forward for the installation of Richmond's White Way, which, it is hoped, to have installed properly before the reconstruction of the new paved streets begins. The cost of the standards and installation is to be raised by popular subscription among the business men and citizens of Richmond, according to the same plan that was worked out and endorsed by the Chamber of Commerce and citizens generally before the war.

Complete plans have been drawn and blue prints made for the installation of the White Way posts. A very attractive design has been submitted, and the details have pleased all who have seen them.

The tentative plans call for installation of an ornamental street lighting system, extending along Main from Third and Collins streets and on First and Second streets to Irvine.

The initial installation will consist of 40 units spaced from 93 to 120 feet apart and located directly opposite each other on both sides of the street. The plans provide for adequate illumination of the above mentioned streets and their intersections and also for the fronts of the abutting buildings.

The standard selected is of the most modern type; and architecturally correct for Richmond. The base is of cast iron with a heavy substantial fluted steel shaft, on the top of which will be a General Electric Company novalux unit, with a large diffusing glass globe and an artistically designed glass canopy. Within the globe and canopy will be a 400 candle power high efficiency, incandescent lamp.

The distribution system will consist of a 6.6 ampere series alternating constant current circuit having a maximum pressure of 2,000 volts. The distribution system will be wholly underground and the cables located in a trench near the curb. From this trench the cables will go through the ornamental standards to the transformer in the casing of the unit.

The White Way units will be on two separate circuits, both circuits will burn until 11 o'clock at night and one circuit, having every second unit, will burn all night.

Richmond will look like a real city when the White Way is installed and paved streets are laid.

After his sermon in which he had denounced the methods of striking street car men at Louisville, Dr. E. L. Powell, pastor of the First Christian church there, received an anonymous threatening letter. It is just such skunks as the writer of the letter, who are taking a chance on killing helpless women and children by placing dynamite on street car tracks. This smacks of the sort of work that made the Hun odious throughout the civilized world.

All Kentucky rejoices with Cincinnati over the great victory of the Reds in winning the National League pennant. And, judging from indications around these diggings, all Kentucky is going to endeavor to squeeze into Redland field to see the Reds beat the Chicago White Sox for the world's championship. As for us, we're still relying on that promise Jack Ryder made us back in 1917, of a press box seat the first time the Reds won a pennant.

MEXICO'S TREMENDOUS PRODUCTION OF OIL

(Correspondence Associated Press)
Mexico City, Sept. 18.—A stupendous array of figures greets the investigator who attempts to ascertain how much oil has been conveyed from Mexico during the past few years and what the profits are to those who have ventured to sink fortunes in an effort to tap the petroleum deposits that are known to underlie certain portions of the republic.

A statement recently furnished the Associated Press by the Department of Commerce and Industry graphically portrays the growth of this industry which now, as during the war when its wells furnished much of the motive power that took troops and supplies to France and victory, occupies a prominent place in the relations between the United States and Mexico.

From 1901 to 1918, inclusive, the production of crude petroleum in the republic amounted to 285,910,789 barrels, every year showing a consistent gain over that previous. In 1901 only 10,315 barrels were produced. In 1914 production reached 26,235,403 barrels; and in 1918 63,828,326 barrels.

During the year of 1918, out of 63,828,326 barrels of petroleum produced, two companies (El Aguila and Huasteca), produced 37,107,104, according to the statement figures.

Export data indicates that Tampico leads all ports, in 1918 more than 5,271,012 tons of petroleum having left that harbor. Approximately half that amount left Tuxpan. According to the statement there are 299 producing wells in Mexico.

"THE TIGER" ON VACATION

(Correspondence Associated Press)
La Tranche, Vendee, France, Sept. 18.—Premier Clemenceau arrived here the other day in search of peace and quietness. The Premier looked as if he needed rest and there was nothing suggestive of the "Tiger" as he descended from the dusty automobile which had borne him from Paris to the sea. He appeared old and wan and tired and heaved a sigh of relief as he sat on an old wooden bench in the shady garden of the village Philippon, wiped the perspiration from his brow and enjoyed the ocean breeze.

The Premier does not like public functions and probably the only one of the past few months, excepting those of the retrieval of Alsace-Lorraine at which he did not appear bored, was the Victory Day parade. He has lost none of his good humor however, and when asked how he had enjoyed the trip from the capital, replied:

"Somewhat tired but the country is so beautiful. Yesterday we visited several chateaux on the Loire. I should have enjoyed greatly having a little sleep at Nantes, but the crowd, after midnight commenced to acclaim and cheer me under my very window at the Central Hotel. What a funny idea."

Accompanied by a couple of old weather-beaten fishermen, the Premier of France went for a stroll along the beach, speaking with them in the dialect of the provinces.

At the G. A. R. national encampment Columbus wild cheers greeted the statement "if any body raised a red flag shoot him."

Health About Gone

Many thousands of women suffering from woman trouble, have been benefited by the use of Cardul, the woman's tonic, according to letters we receive, similar to this one from Mrs. Z. V. Spell, of Hayne, N. C. "I could not stand on my feet, and just suffered terribly," she says. "As my suffering was so great, and he had tried other remedies, Dr. —— had us get Cardul. I began improving, and it cured me. I know, and my doctor knows, what Cardul did for me, for my nerves and health were about gone."

TAKE

CARDUL

The Woman's Tonic

She writes further: "I am in splendid health... can do my work. I feel I owe it to Cardul, for I was in dreadful condition." If you are nervous, rundown and weak, or suffer from headache, backache, etc., every month, try Cardul. Thousands of women praise this medicine for the good it has done them, and many physicians who have used Cardul successfully with their women patients, for years, endorse this medicine. Think what it means to be in splendid health, like Mrs. Spell. Give Cardul a trial.
